Mogelijke lade afstelling:

Indien nodig kan het ladefront iets (links en/of rechts) in hoogte versteld worden. Draai het borgschroefje aan de onderzijde van de ladebak iets los en verdraai het stelwieletje in gewenste hoogte om vervolgens het borgschroefje weer vast te draaien.

RÉGLAGE DES TIROIRS.

Si besoin il est possible d'ajuster la position du tiroir dans la hauteur (gauche ou droite).

Détournez la vis de blocage en bas du tiroir et tourne la petite roue dans la hauteur désirée, puis fixer la vis de blocage. voir dessins ci-dessous

Mögliche Schubladeneinstellung:

Wenn nötig kann die Schubladenfront etwas in der Höhe (links und / oder rechts) eingestellt werden. Lösen Sie die Feststellschraube an der Unterseite der Schublade etwas und drehen Sie das Einstellrad leicht auf die gewünschte Höhe, um die Feststellschraube danach wieder festzuziehen.

Possible assembling of the drawer:

If necessary the drawerfront can be adjusted (left and/or right) in height. Loosen the locking screw on the underside of the drawer slightly, turn the adjusting wheel to the required height and then tighten again the locking screw
